

Special Session for European Projects on Compilation Technology for Multi-Cores

June 10, 2014, Schloss Rheinfels, St. Goar, Germany, <http://www.scopesconf.org>

AIM AND SCOPE

The workshop on Software and Compilers for Embedded Systems (SCOPES) will organize a special session for European projects working on compilation technology for multi-core systems. This special session will feature papers and presentations from various European projects working on this theme. The special session aims to stimulate discussion and cooperation between European projects within this area.

The special session will feature a combination of research papers and research presentations (details see below). The papers and presentation abstracts will also be published in the ACM digital library. The workshop is held in cooperation with ACM SIGBED and EDAA.

SPECIAL SESSION STRUCTURE

The special session will feature a series of presentations each followed by intensive discussions. This allows for an interactive atmosphere in which European project can exchange new ideas and explore ideas for possible collaborations.

SUBMISSION INSTRUCTIONS

SCOPES accepts two types of submissions (details can be found on scopesconf.org):

Research papers

Research papers should present original research results not published or submitted for publication in other forums. Accepted papers will be published via the ACM digital library and they will be scheduled for a presentation during the workshop. Authors of accepted long research papers will be given the opportunity to publish a 10 page paper in the workshop proceedings (available through ACM digital library).

Research presentations

Research presentations should present research results relevant to the topics addressed by the workshop. These presentations may be based on research results that have previously been presented in other forums. Accepted

presentations will be scheduled for a presentation during the workshop. Authors of accepted research presentations will be given the opportunity to publish a 4 page abstract in the workshop proceedings (available through ACM digital library). Publication in the proceedings is optional and the authors may decide not to do so.
